

NUMBERS TO THE MODELS

Generating the data for Systems Biology

Göteborg-Sweden
June 10-12, 2005

SESSION I

Need and using quantitative data for modelling

June 10 morning

Speakers: Edda Klipp, Reinhart Heinrich, Bela Novak, Mats Jirstrand.

SESSION II

The protein world

June 10, afternoon

Speakers: Bertrand Seraphin, Gustav Ammerer, Brenda Andrews, Søren Brunak.

SESSION III

Phenomics, quantitative phenotypic analysis

June 11, late afternoon

Speakers: Charlie Boone, Anders Blomberg, Yitzhak Pilpel.

SESSION IV

RNA and gene expression

June 11, morning

Speakers: Takashi Ito, Roel van Driel, Francisc Posas, Tim Hughes.

SESSION V

Metabolism and small molecules

June 11, afternoon

Speakers: Steve Oliver, Sune Danø, Jens Nielsen, Matthias Reuss.

SESSION VI

Analysis of the spatial organisation of the cell

June 12, morning

Speakers: Dag Hanstorp, Matthias Peter, Rachel Errington, Achilleas Frangakis.

Conference organisers: The QUASI EC Project, The Early Stage Training Project "Systems Biology", The NordForsk Network "Feast and Famine", The Göteborg Yeast Centre, The Göteborg Quantitative Biology Initiative, The Nordic Yeast Research Community
